# UNITED EQUITY Item # 20003 PIG TRANSITION

Contains a source of phytase derived from Trichoderma reesei. Phytase increases the digestibility of phytin-bound phosphorus in Swine starter diets.

## **INGREDIENTS**

Grain products, plant protein products, vegetable oil, calcium carbonate, calcium phosphate, salt, L-lysine, L-threonine, DL-methionine, dl-methionine hydroxy analogue, potassium chloride, sodium bentonite, ferrous sulfate, basic copper chloride, tryptophan, zinc oxide, manganese sulfate, selenium yeast, roughage products, vitamin E supplement, copper sulfate, manganous oxide, calcium sulfate, niacin supplement, sodium aluminosilicate, dried Trichoderma reesei fermentation product (phytase), calcium pantothenate, riboflavin supplement, menadione sodium bisulfite complex (source of vitamin K activity), mineral oil, vitamin A supplement, vitamin B-12 supplement, vitamin D-3 supplement, and ethylenediamine dihydroiodide.

AVAILABLE IN 50 lb (22.69 kg) BAGS or BULK.

## **FEEDING DIRECTIONS**

Feed as the sole ration to pigs as they transition from the United Equity Grower diet to the United Equity Finisher diet. Always supply a source of fresh, clean water.

- Formulated using the same ingredients throughout specifically formulated for each life stage. Starting with our Pig Starter and continuing through all stages – allowing your pigs to make smooth transitions from one step to the next.
- Second-to-none optimized amino acid levels, which are critical to any feeding program.
- Sel-Plex<sup>®</sup>, an organic form of Selenium.
- Feed United Equity Pig Transition from 125-220 lbs.

## **GUARANTEED ANALYSIS**

Crude Protein, min	13.8 %
Lysine, min	1.0 %
Crude Fat, min	4.3 %
Crude Fiber, max	4.0 %
Calcium, min	0.2 %
Calcium, max	0.7 %
Phosphorus, min	0.4 %
Salt, min	0.2 %
Salt, max	0.7 %
Selenium, min	0.3 ppm
Zinc, Min	120 ppm
Phytase, min	*272.0 FTU/lb

\* One unit of phytase activity (FTU) is defined as the quantity of enzyme which liberates 1 micromol of inorganic phosphorus per minute. Environmental factors such as feed pH, moisture, and processing methods such as pelleting or extrusion, may affect enzyme activity.

### WARNINGS

This product, which contains added copper, should not be fed to sheep or related species that have a low tolerance to copper. This product has been formulated specifically for swine and is not intended for other species.

Caution: Follow label directions. Feeding this feed containing added selenium at levels higher than recommended is not permitted.
